**Did You Know?** UCPath works in conjunction with location time & attendance systems for tracking leaves

- When employees take a leave, the entry is done in local time & attendance systems. This information is sent over to UCPath via the time files.
- The location should also submit an extended absence request that outlines what specific type of leave the employee is using:
  - FMLA – Family and Medical Leave Act
  - PDLL – Pregnancy Disability Leave Law
  - CFRA – California Family Rights Act
- UCPath will link the leave information from the time files to the detail of based on what is entered in extended absence decrement the correct leave bucket
- Refer to the Auto-Calc FMLA, CFRA and PDLL Takes job aid for more details
