UCPath Notice: Updating Direct Reports

To: General UCPath Communications Distribution

UCPath has determined that recent system performance issues are likely linked to certain HR transactions that update direct report information. These transactions include new hires, position changes, terminations and PayPath updates.

To address these performance issues, effective today, September 2, UCPath will transition the update of direct reports information to occur during the nightly batch process, rather as immediate online updates.

Impact:
Managers will see the direct report information updated the next calendar day after an HR transaction is completed.

UCPath will discuss this change with the WFA community of interest group on September 7 to address additional questions or concerns.

Thank you,

UCPath
