Did you know: Some benefit plans (HMO plans) require the employee live or work inside a specific service area to qualify for the plan

- If both the home and work address in UCPath fall outside the service area, the employee will no longer be eligible for the plan
- If the employee is no longer eligible for the plan, the system will notify the employee via email and advise the employee to log into UCPath and select a new plan

Example:

- A post doc is currently enrolled in an HMO Plan
- The employee's work address is set to remote with a zip code of 00000
- The employee relocated to Texas and updated their home address in UCPath
- Both the work address zip code of 00000 and the Texas zip code are outside the service area of the HMO plan, so the system will automatically remove the employee from the plan and advise the employee to select a new plan

Other Updates & Reminders:

- The temporary change to vacation accrual maximum ends June 30, 2022. Employees must reduce vacation balances below the maximum accrual amount prior to June 30, 2022, to continue accruing additional time. Reference UCnet for more details. Remember, employees

will not lose vacation they have accrued and there is no set time limit for when they must use the vacation. Employees will not accrue additional vacation until their balance is below the maximum accrual amount.

- Job configuration changes and location specific configurations can be viewed on the Location Support Site
