UCPath Notice: UCPath Upgrade Worklist Enhancement

To: General UCPath Communications distribution

When the UCPath upgrade goes live on Monday, December 13, 2021, managers and transactors will experience a new way to interact with worklist transactions.

Current interaction:

- When clicking on a worklist link, the transaction page opens within the same browser tab
- Users may click on the Dashboard or Worklist from the left navigation menu to return to the worklist summary page

Enhancement:

- When clicking on a worklist link, the transaction will open in a new browser tab
- After completing the transaction, close the new browser tab to return to the original browser tab

Thank you,

UCPath
