JOB DATA CHANGE process begins when one or many changes to an employee's job record are made, such as: FTE, employee classification, probation or trial employment status, job end dates, recurring or one-time additional compensation*, pay rate, job earnings distribution, short work break, etc.

*See Additional Compensation infographic for more information.

AS-IS PAIN POINTS

- Data changes are currently made directly to PPS with no tracking for requests or approvals

IMPROVEMENTS

- Multiple UCPath processes and transactions will be available on a single simplified ServiceLink request form. The user will only be presented with the fields applicable to the particular change they want to make

BENEFITS

- Standardized and streamlined experience for employees
- Reduced risk of non-compliance
