UCPath Notice: HR Templates – Override Last Date Worked

To: General UCPath Communications distribution

UCPath updated four HR templates to include the "**Override Last Date Worked**" check box.

When initiating these templates, there is no action needed on this new field; it should be left as is. If checked, the check box ensures the selected "**Last Date Worked"** entry is saved to an employee's job data record when the template action is committed to UCPath. The update resolves an issue reported under UCP-112389.

Updated HR templates:

- Complete Contingent Worker Instance- UC_COMP_CWR
- Involuntary Termination- UC_INVOL_TERM
- Voluntary Termination- UC_VOL_TERM
- Retirement- UC_RETIREMENT

Training Resources:

- Initiate Complete Contingent Worker Instance Template Transaction
- Initiate Involuntary Termination Template Transaction
- Initiate Voluntary Termination Template Transaction
- Initiate Retirement Template Transaction

Thank you,
UCPath
