# PERSON OF INTEREST

## **UCPATH PILOT**

A PERSON OF INTEREST is someone who is tracked by locations for various reasons, such as potential hire or potential external resource. Locations are responsible for adding and maintaining POI records in UCPath. A POI is not an employee of the University; and will not receive compensation through UCPath. They do not have Position Data or Job Data in UCPath. POIs are assigned a Person ID, instead of an Employee ID. If a POI later becomes an employee or a Contingent Worker (CWR), then their assigned Person ID becomes their Employee ID.

-Types of POIs in UCPath include: UC/OP Affiliated Organization, Assoc. of PResident/Chancellor, POtential Hire-Academic, External Compliance/Auditor, Potential Hire - Staff

### **ROLES FOR PERSON OF INTEREST**

TRANSACTIONAL	TU AWE	CENTRAL	UCPATH
Unit	Approver	OFFICE	Center
rimary point of contact for nagers and unit level dership Vill identify the POI and ermine if the person already its in UCPath; if the POI is already in UCPath; the nsactional unit will add them ICPath as a POI	<ul> <li>Responsible for approving transactional activities and client support</li> <li>Reviews, approves, or Denies POI request and is responsible for notifying the Transactional Unit if their request was denied</li> </ul>	• Responsible for ensuring the appropriate policy is followed.	• Responsible for assigning Person ID and POI record

#### PERSON OF INTEREST MAP

Roadmap presents the most common business case.

The Transactional Unit uses

the Person Organizational Summary, before adding the POI, to determine if the person already exists in UCPath

The Transac-

If person DOES have an existing UCPath person ID use the add a POI relationship component

If person does NOT have a UCPath

person ID use the add POI component

#### The Transactional **Unit Approver** will review and approve the POI request.
