UCPath Alert: Approver Worklist Performance Issues

To: General UCPath Communications distribution

UCPath is experiencing intermittent approver worklist performance issues.

Impact:

- Delay in displaying the UCPath online home dashboard
- Inability to complete approval tasks

We plan to have a resolution in place today, Friday September 3, by 12 p.m. and will send a notification when the approver worklist performance issue is resolved.

We apologize for the inconvenience.

Thank you,
UCPath
